

DE-COMP COMPOSITES, INC.

D244 SERIES

CUTTING SHEARS

D244 is an all-purpose cutting shear. The difference between the D244 and the D244-M is the angle of the cutting edge. It has not been designed for Kevlar[®] fibers.

Overall length is 10" with a cutting edge of 4.5".

D244-M is a cutting shear made of carbon steel with a modified angle. It has been designed for cutting Kevlar[®], carbon, and fiberglass fabrics and prepregs.

Overall length is 10" with a 4.5" cutting edge.

D244-8M is an excellent cutting shear made of tempered stainless steel. It has been designed to cut Kevlar[®], carbon, and fiberglass fabrics and prepregs.

Overall length is 8" with a 3" cutting edge.
