

DE-COMP COMPOSITES, INC.

B100

NYLON PEEL PLY

B100 is a close-weave nylon fabric that has been scoured and heat set. Scouring eliminates contamination from sizing and lubricants used during manufacture of the fabric and heat setting reduces the shrinkage and fraying of the fabric during cure.

B100 is ideal for use on composite assemblies where secondary processing is required after the peel ply has been removed.

B100 is not recommended for assemblies containing phenol resins.

PROPERTIES

Maximum Use Temperature	350°F/177°C
Weight (oz/yd ²)	1.98
Thickness (inches)	0.005
Standard Roll Size	60" x 300 yd
Color	White

Note: Roll lengths may vary $\pm 10\%$
