

DE-COMP COMPOSITES, INC.

D201 TFP

LIGHTWEIGHT RELEASE FABRIC

D201 TFP is a very light weight TFE coated glass fabric and is used as a release interface between assembly details where thickness of the release material must be minimal.

D201 TFP is designed as a release fabric that will allow excess resin, volatiles, and trapped air to bleed through the release fabric and be absorbed into the bleeder or be vented away from the assembly.

D201 TFP is recommended for flat or simple contoured assemblies.

PROPERTIES

Maximum Use Temperature	550°F/288°C
Weight (oz/yd ²)	0.8
Thickness (inches)	0.001
Standard Roll Size	38" x 100 yd
Color	Light Beige
