

# **DE-COMP COMPOSITES, INC.**

## **ZYVAX WATERCLEAN**

### **WATERCLEAN**

#### **DESCRIPTION**

**WATERCLEAN** has been developed to provide an environmentally safe and effective water-based alternative to solvent washing for the removal of surface contaminants. **WATERCLEAN** is non-hazardous, non-flammable and won't harm the surface. **WATERCLEAN** eliminates sanding and/or solvent washing when preparing parts for painting, bonding or other processes that require a completely clean surface. For a totally solvent-free mold release system, use **WATERCLEAN**, **SEALBRITE** and **WATERSHIELD**.

**WATERCLEAN** benefits are:

- \* **ENVIRONMENTALLY SAFE**
- \* **No build-up on mold**
- \* **No solvents or alcohol**
- \* **Non-flammable carrier**
- \* **No CFC's, VOC's, or ODC's**

#### **TYPICAL PROPERTIES**

<b>Appearance &amp; Odor</b>	<b>: White fluid with bland odor</b>
<b>Carrier</b>	<b>: Water</b>
<b>Flash Point [C.C]</b>	<b>: None</b>
<b>Coverage</b>	<b>: Approximately 600 Sq. Ft./Gallon</b>
<b>Wt/Gallon</b>	<b>: 8.0 lbs/Gallon</b>
<b>Cure Requirement</b>	<b>: N/A</b>

### **WATERCLEAN (CONTINUED)**

#### **HOW TO USE**

1. **WATERCLEAN** should appear uniform in container. If not, then shake or stir.
2. Apply a **SMALL** amount directly on to the mold surface.
3. Using a damp paper towel scrub the surface. Work with small sections until the entire surface is scrubbed. For very large parts, an electric or air buffer can be used.
4. **DO NOT** allow **WATERCLEAN** to dry on the mold surface
5. Remove using only **WATER**. Rinsing with a wet paper towel or a water sprayer can do this.
6. Rinse until no residue remains-the surface should “feel” clean.
7. Allow surface to dry either by wiping dry with a clean paper towel or by forced air or heat.
8. You are now ready to apply a sealer or release agent.

#### **WATERCLEAN USES**

- Safe & effective cleaning for molds, tools, equipment and finished parts, will not remove uncured resin or gel coat.

#### **HANDLING**

**WATERCLEAN** needs to be carefully sealed when not in use in order to avoid water evaporation. If this happens either during use or storage, a light misting with water can return **WATERCLEAN** to usable consistency. **NOTE:** the addition of too much water will dilute efficiency.

#### **STORAGE AND SHELF LIFE**

Store in a dry area in the original closed container. **DO NOT** store at elevated or freezing temperatures. Shelf life is 12 months.

## ZYVAX WATERCLEAN

### WATERCLEAN (CONTINUED)

#### SAFETY DATA

Material safety data sheets are available for all ZYVAX products and should be consulted prior to use of product.

#### SHIPPING DATA

DOT SHIPPING NAME:	None
DOT HAZARD CLASSIFICATION:	None
DOT I.D. NUMBER:	None

#### PACKAGING

WATERCLEAN is available in the following sizes:

- 1-U.S. gallon can
- 5-U.S. gallon pail
